JANHAVI PRASHANT PARAB

AI Automation Specialist | Python Developer | B.Sc. IT Graduate

8779150297 | jaannviparab@gmail.com | Mumbai, Maharashtra | GitHub: github.com/jaannviparab-codess/ai-nivaran

PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate (CGPA 9.10, 2026) working as an **AI Automation Specialist at MCM Pvt. Ltd.** with 2 months of professional experience in the Compliance Team. Hands-on with Python, APIs and API integration, backend development using Django and Flask, SQLite databases, and web/UI development with HTML and CSS. Currently learning Data Science, Artificial Intelligence and Machine Learning, with a strong interest in building practical software, automation and AI-driven solutions.

PROFESSIONAL EXPERIENCE

AI Automation Specialist — MCM Pvt. Ltd. 2 Months

Compliance Team

- Develop Python-based backend functionality and automation supporting technology-driven workflows within the Compliance Team.
- Work with APIs and implement API integrations between backend services and application workflows.
- Build web applications and backend features using **Django** and **Flask**.
- Handle database work with **SQLite**, including data storage, retrieval and management.
- Develop user interfaces with HTML and CSS, working across backend, database, API and UI components.

TECHNICAL SKILLS

Programming	Python
Backend & Web	Django, Flask, HTML, CSS, Web Development, Backend Development, APIs, API Integration
Database	SQLite, Database Management
AI & Data	Data Science, Artificial Intelligence, Machine Learning (currently learning)
Tools	VS Code, Git, GitHub, Claude (AI-assisted development), MS Office, PowerPoint, Canva

PROJECTS

AI Nivaran — AI-Powered Civic Issue Reporting Platform

Live: ai-nivaran.vercel.app | **GitHub:** github.com/jaannviparab-codess/ai-nivaran

- Web platform for citizens to report public infrastructure problems such as potholes, garbage and faulty streetlights.
- Uses AI to detect and classify reported issues, assign priority scores and track each report through to resolution.
- Includes user registration and sign-in, a multilingual interface (English, Hindi, Marathi) and a demo mode with simulated reports; deployed on Vercel.

Automated Wheelchair April 2026

- Designed and built a functional automated wheelchair prototype using Arduino, ultrasonic sensors, motor drivers and a Bluetooth module for wireless control; programmed in C/C++.

EDUCATION

B.Sc. in Information Technology | CGPA: 9.10 Completed 2026

JOB SIMULATIONS

- **Deloitte Data Analytics Job Simulation — Forage:** Performed data cleaning, analysis and visualization, and translated insights into business recommendations.
- **TATA GenAI Powered Data Analytics Job Simulation — Forage:** Conducted exploratory data analysis and risk profiling, AI-based delinquency prediction and data storytelling.

CERTIFICATIONS

Advanced Excel September 2025
